Once engaged, the bank performs comprehensive due diligence, analyzing financial statements, market conditions, and strategic positioning. Valuation techniques such as discounted cash flow (DCF), comparable company analysis, and precedent transactions are employed to determine fair values.

Step 3: Structuring the Deal

Based on the analysis, the bank helps structure the transaction. For equity issuance, this involves deciding on the number of shares, pricing, and timing. For M&A, it includes valuation, offer structuring, and negotiations.

Step 4: Marketing and Distribution

The bank then markets the securities to investors through roadshows or syndicate offerings, aiming to generate demand and optimize the terms.
